

Week of June 11 to June 17, 2026

Meeting report for Jordan: current dashboards, shipped items, and open handoffs.

For: Jordan From: Shela Period: June 11 to June 17, 2026 Generated: June 18, 2026

Biggest signal this week: **traffic recovered from last week's drop and conversion count improved**. June 11 to June 17 closed at **7.9K users, 9.1K sessions, 12.7K views, 7 booked calls, and 30 created accounts**. Newsletter performance stayed above the benchmark at **58.7% latest open rate**. YouTube's primary read is subscriber motion: **36 new subscribers, 48 unsubscribes, and net -12 subscribers** in the export window.

Dashboard Summary

- **Website Traffic** improved week over week: users moved to 7.9K, sessions to 9.1K, and views to 12.7K.
- **Conversions** moved in the right direction: 7 booked calls and 30 created accounts, up from 4 and 22 last week.
- **Traffic Insights** shows 2.5K tracked sessions for June 11 to June 17, with "Other" as the largest bucket and Organic Search still the best blog channel.
- **Domain Rating** is 3.27/10 on the OpenPageRank scale. OpenPageRank is a different scale from the old Ahrefs DR.
- **AI Visibility** is current from the June 14 AEO run: 39.0% combined mention rate, 8 cited-answer wins, and 12 visible content gaps.
- **AEO wins** remain strongest around Secretary of State API, real-time SOS, and Cobalt verification prompts.
- **Newsletter** latest edition produced 369 unique opens and a 58.7% open rate, with a 53.6% average open rate across 104 editions.
- **YouTube** subscriber motion is the primary metric this week: 36 new subscribers, 48 unsubscribes, and net -12 subscribers, alongside 11,759 views and 7,041 engaged views.

Completed This Week

Dashboard refresh and report package DONE

- **SEO KPI, Traffic Insights, AEO, Newsletter KPI, and YouTube KPI** were refreshed or rechecked before screenshotting.
- **The current weekly row is live** for June 11 to June 17: 7.9K users, 9.1K sessions, 12.7K views, 7 booked calls, and 30 created accounts.
- **All five dashboard screenshots** were captured from the live dashboard URLs for Jordan's reference.

Newsletter signal surfaced DONE

- **Beyond Banks produced a product question** from a reader asking whether Cobalt has a business license API and how to use it.
- **This is a useful customer-language signal** for product education, business license API positioning, and follow-up content.
- **The newsletter KPI remains healthy** with the latest edition at 58.7% open rate.

YouTube content cadence updated DONE

- **Subscriber movement is the primary read**: 36 new subscribers, 48 unsubscribes, and net -12 subscribers in the export window.
- **Seven videos were published** from May 21 to June 18, with 11,759 views and 7,041 engaged views.
- **Top new video by engaged views**: "Secretary of State CLI: Audit Receipts in One npm Install" with 118 engaged views.
- **Newest tracked video**: "EIN Check at Intake vs W-9 Cleanup After: The Cost Gap" with 94 engaged views and 49.0% stayed to watch.

In Progress

AEO and content gap follow-up IN PROGRESS

- **AI visibility improved to 39.0%**, but 12 prompts still show content gaps.
- **Highest-priority gaps** include registered-business API, Texas company lookups, New York company checks, and step-by-step SOS API queries.
- **Next content pass** should connect the new verification cost content to those AEO gaps.

Content repurposing queue IN PROGRESS

- **The Build vs Buy SOS Verification blog is live** and YouTube Shorts variants were prepared for the topic.
- **Carousel follow-up remains open** for the same topic so the blog has a LinkedIn companion asset.
- **YouTube retention should guide packaging**: CLI, EIN, KYB intake, and manual-verification topics are the strongest recent engaged-view cluster.
